* 'In Remediation' status indicates a determination by the Council, after an Approved Scanning Vendor organization has violated applicable ASV Qualification Requirements. This status may result from failure to comply with any number of applicable ASV Qualification Requirements. ASVs are notified when remediation is required, and ASVs listed as "In Remediation" may be actively seeking to remedy this status. For more about remediation please review the Remediation section of the [Qualification Requirements for Approved Scanning Vendors](#).

For information about the status of a particular ASV, please contact that ASV.
